Advanced Diploma | Jan 2013 - Dec 2016

## PROFILE

I'm a front-end web developer based in Toronto. I come from an IT background with an emphasis on customer service. I have been ingrained with the philosophy that client satisfaction is undoubtedly the most important aspect of any business. I work well on my own but I thrive as a member of a team. I care about using my strong resourcefulness to help the team and the organization advance efficiently and productively.

## FEATURED WORK

### GUITAR CHORDS APP

[LIVE LINK](#)

Made with: React | Firebase | HTML5 | CSS3

An app built with React that shows users pictures of how to play guitar chords. Users click on individual buttons and an image is rendered onto the screen. Users can leave comments below which are stored in Firebase

### GAME OF THRONES QUIZ

[LIVE LINK](#)

Made with: JQuery | SASS | HTML5

An app built with JQuery that allows users to answer 5 personality questions and, based on their answer, are then shown a matching character from the show

## EXPERIENCE

### TECHNICAL SUPPORT ANALYST

Scotiabank | April 2016 - April 2019

- Provided technical support to Scotia Connect business customers to access and use Scotia connect and mobile web applications for payment creations
- Oversaw the training and mentorship of 5 new hires resulting in their quick job readiness
- Collaborated with multiple teams across Scotiabank in order to verify successful payment processing resulting in higher client satisfaction

### TECHNOLOGY MENTOR

Centennial College | September 2014 - August 2015

- Developed technical documentation for students, staff & faculty on the efficient use of Centennial College's tech systems, computers and hardware
- Led the ongoing maintenance and troubleshooting of complex issues with desktop computers, netbooks and laptops
- Provided assistance with the operation of adaptive technology and the use of media rooms in the Resource Centre
